

## Damaging Hail

- The larger the hail, the stronger the thunderstorm
- Hailstones can vary from pea size up to grapefruit size or larger
- A 3 inch hailstone can fall to the ground as fast as 107 mph!
- The largest hailstone recorded in the U.S. measured 7.9 inches

**Find shelter, stay indoors, and stay away from windows!**

Kansas

## Hail Safety

**Get inside and away from windows**

**Get off athletic fields**

**Campers:**

- identify safe shelters ahead of time
- abandon tents
- RV's & cars may not provide enough protection
